CLAIMS

5

What is claimed is:

1. A system, comprising:

a remote control device, the remote control device including:

a processor;

a remote control receiver in communication with the processor; an input device in communication with the processor; and an output device in communication with the processor; and an electronic device, the electronic device including:

a receiver for receiving signals from the remote control device;

a telephonic device; and

a transmitter in communication with the telephonic device, the transmitter for transmitting data from the telephonic device to the remote control device.

- 2. The system of claim 1, wherein the output device includes at least one of a speaker and a light source.
- 3. The system of claim 1, wherein the remote control receiver includes at least one of an infrared receiver, a radio frequency receiver, and a microwave receiver.
 - 4. The system of claim 1, wherein the data include call receipt data.
 - 5. The system of claim 4, wherein the call receipt data include caller identification data.
- 6. The system of claim 1, wherein the transmitter includes at least one of an infrared transmitter, a radio frequency transmitter, and a microwave transmitter.
 - 7. The system of claim 1, wherein the telephonic device includes a speakerphone.

& A system, comprising:

5

10

a remote control device, the remote control device including: a processor;

a remote control receiver in communication with the processor; an input device in communication with the processor; and an output device in communication with the processor; and an electronic device, the electronic device including:

a receiver for receiving signals from the remote control device; an electronic program guide; and

a transmitter in communication with the electronic program guide, the transmitter for transmitting data from the electronic program guide to the remote control device.

- 9. The system of claim 8, wherein the data include television program starting times.
- 10. The system of claim 8, further comprising a telephonic device in communication with the transmitter.
- 11. The system of claim 8, wherein the output device includes at least one of a speaker and a light source.
